

*J note mledg*

June 22, 1937

Mr. Francis Lyman  
Boulder, Utah

Dear Sir:

REL: BOULDER CREEK DISTR.

On May 29, 1937, a letter was received by this office signed by Mr. W. A. Wilson, in which he stated a letter should be received from you in the same mail expressing your attitude toward accepting the position as water commissioner on Boulder Creek for 1937. To date this office has not received said letter. Since your official appointment will not be mailed until I am advised that you are willing to accept the position of water commissioner under the terms specified by the Boulder Irrigation and Water Development Company, kindly give this matter your prompt attention in order to avoid any further delay.

Yours very truly,

T. H. Humpherys  
STATE ENGINEER
